

# GlobalWire

WHEREVER YOU ARE

## ONE CARD FOR THE SEVEN SEAS

GlobalWire SIM card

GlobalWire is a global data service from MiWire designed to high volume data usage that will connect you to a mobile network wherever you are.

### What is GlobalWire?

The maritime industry is very different from business on shore, and needs a data service designed for its needs. GlobalWire is a data service on a single SIM card that will keep you connected with mobile operators in most countries round the world. GlobalWire is designed with prices optimized for heavy data usage in multiple countries. MiWire's research show that even long haul ships are within reach of mobile networks at least 60% of the time.

#### Group 1

Colombia	Mozambique	
Gambia	Nigeria	
Guinea	Pakistan	

#### Group 5 including group 1+2+3+4

Belize	Morocco
Benin	Niger
Chad	Nepal
Haiti	Tajikistan
Malawi	Togo

### How does GlobalWire work?

The countries covered by GlobalWire are divided into 5 tariff groups.

You can buy monthly data bundles to your subscriptions for each of the groups.

You can always upgrade, downgrade and cancel your bundle with a month notice. The minimum duration is one month.

A data bundle can also be used in the countries with a lower group number. Bundles for different groups can be purchased for the same period.

The services cover 4G/LTE, 3G and 2G networks.

Table showing the corresponding GB price and total price for each group and data volume

Data bundle	Price per GB/Monthly bundle in €(EUR)				
	Group 1	Group 2	Group 3	Group 4	Group 5
1 GB	8/8	16/16	25/25	28/28	49/49
5 GB	7/35	14/70	24/120	27.5/138	48/240
10 GB	6/60	13/130	22/220	27/270	47/470
50 GB	5/250	12/600	20/1000	25/1250	45/2250
100 GB	4/400	11/1100	17/1700	23/2300	43/4300
500 GB	3.5/1750	9.5/4750	15/7500	22/11000	41/20500

Minimum monthly charge per SIM card is €50. Prices are subject to changes without prior notice.

Please contact MiWire for the detailed terms and conditions for the GlobalWire subscription.

GlobalWire is tested and approved with SeaWire Pro
